

Lebanese Communist Party

الحزب الشيوعي اللبناني

Dear Comrades,

We send you this message in order to congratulate you for the great victory achieved by president Lula Da Silva.

It is a victory for the Brazilian people, but also for all the progressive, workers, leftist and communist parties around the world.

We hope that this victory will open up a new era of democracy, social justice, protection of the environment and the amazon, and ending all forms of social and ethnic discrimination in your country.

We are aware how important this victory is for all the people of Latin America who are looking forward to end the US hegemony over their region, and for the people of Palestine who also look forward for the support of Brazil after years of full bias towards Israeli occupation.

Together, we share our optimism and our pride with this victory!

Long live international solidarity!
